## PROFILE

*Profile*

Since the age of 16, I have been shooting, editing and producing videos independently and improved my skills to the point where I studied Film for seven years, graduated Liverpool John Moores University and continue to provide high-quality content for all manner of appointment. This includes high-concept drama short films, music videos, documentary productions and editing for existing productions. I work with numerous programs such as Final Cut Pro X, Adobe Premiere Pro, Adobe After Effects and Adobe Photoshop among others. I also provide administrative content for advertising campaigns across social media, including teasers, visual statements, audio-hosting content and engaging interaction between audiences and the host. After graduating, I have spent my time working freelance and on short-term projects with multiple media artists and clients.

I have editing hundreds of hours of content and continue to do so when I am available to engage projects that continue to challenge and satisfy me.

For more information and a link to where you can see some of my work, please don't hesitate to contact me on samodfilm@gmail.com by e-mail.

### KEY SKILLS

- Friendly, co-operative, experienced with face to face interaction with customers/co-workers
