E&K is a team of professionals with a big experience in a various media project: film music, sport events, fashion show, song writing. Our slogan is "Turn on Your sound" because we adhere two founding principles in our work:

- Listen and understand you, your ideas and values...
- ...to use this understanding as the base to give a special and unique sound for your product. So that your clients could also hear, understand and finally trust you.

Qualitative custom music significantly intensifies the impact of your visual content, be it TV-show, advertisement or movie. And that's why a track from AudioJungle isn't the best choice if you want to be the number one.
