

## Personal Statement

---

I have developed a real passion and ambition for the world of TV and media, especially in the editing and production side of the industry. The number of shows, series, movies etc where I've looked at the behind the scenes and what goes on to put it all together. For example, the new Top Gun movie, the equipment, training, and precision it took to put everything together and follow on from the original story line amazes me. Not to mention the cinematography in films such as 'all on the western front' and 'creed 3' which I've recently watched. I am thoroughly involved with social media and the digital world, how it is growing at such a fast pace, evolving and becoming an even bigger part of our society.

First getting a glimpse at GCSE Media, I knew I had a passion for it straight away, willingly taking it for A-Levels, developing my skills and knowledge throughout. First creating a music video and a website, promoting my make-up artist, for my A-Level media coursework which I received a grade A, I had a lot of fun and enjoyment doing this, solidifying my ever growing passion for this industry. Enabling me to bring out my creativity, deciding what shots and editing techniques to do and creating my own story line to fit the song.

I have now achieved my certificate in practical film-making and finished studying my 6 month practical film-making course at met film school in London, Ealing, where I have recently filmed my final project and am now in the post production process which it will be released when finished. I have thoroughly enjoyed it, doing what I love and taking a real interest into not only film-making but the TV and digital industry. Continuing to develop and practice my skills everyday working with professional actors and film makers it has fuelled my ambition and passion for the film and TV industry even more. Using professional, cinematic equipment and working on my own and other projects constantly networking and learning in depth about the film and media industry. Only now to be focused on the next step and determined to get my foot in the door and kick start my professional career in this exciting industry.

## Education

---

ST Monica's Primary School (2008-2015)

GCSE'S – English Language and Literature – 6, Maths – 6, Media Studies – 7, History – 6, Combined Science – 6/5, RE – 6, PE – 4, French – 4

Finchley Catholic High School (2015-2022), where I achieved AAB in my a levels. An A in Media Studies, A in English Language and B in PE.

I have now finished my practical film-making course at Met Film School in London, Ealing, and received my certificate in practical film-making. (October 2022 – March 2023)

## Professional Experience

---

### Website/Social Media Manager | The Men's Room Retail

FROM JAN 2021 UP UNTIL SEP 2021

I created a website for the Men's Room, a men's clothing boutique in Winchmore Hill N21, and managed their social media (Instagram, Facebook etc). Where I worked independently and closely to the owner, requiring me to work around my own schedule and respond efficiently to the client. Needing a lot of responsibility and creativity skills through managing the website and social media by myself and making it visually pleasing to the audience to bring in customers and increase business.

- Link to the website - <https://mensroomlifestyle.co.uk/>

### Catering Events around London | Calibre International

FROM NOV 2021 UP UNTIL NOV 2022

I worked in different events around London, requiring me to have good organisation and coordination skills. Giving me a lot of responsibility, getting there and back myself and managing my time efficiently, being polite and adapting to the diners needs. This has developed my team-working skills, following instructions quickly and smoothly, communicating and working with all different types of people.

### Delivery Driver | Amazon

FROM DEC 2022 UP UNTIL NOW

I deliver parcels for amazon around different areas of London and outside of London. This heavily requires me to be organised and on time to the pickup location and act fast on my own initiative. Also developing and improving my people and communication skills, increasing my confidence when conversing and growing my ability to problem solve and figure out solutions quickly and efficiently if a problem comes up.

## My Work

---

Here is my work that I have done for projects at school and to practice my skills.

The 2 Minute short film reveal project called 'devil in disguise' which I **directed, produced, and edited myself** at met film school in November 2022.

The backstory is they are a young couple in a recent relationship watching a Man United vs Tottenham game and the boyfriend thinks his girlfriend is a Tottenham fan which soon he finds out the truth...The name 'devil in disguise' comes from what Man United's nickname is as the 'Red Devils'.

- *Link to video:* <https://vimeo.com/787388350>

(Unfortunately, I am unable to attach some of my other projects I have edited but I can easily send them to you through my email, if you would like to watch them)

I have also recently filmed my short film on 18th and 19th of February 2023, which is now in the post production process and will be soon ready to be released.

## Skills

---

- Creative & Organised
- Enthusiastic & Ambitious
- Independent & Determined
- Strong Communication Skills & Responsible

## Duke of Edinburgh Awards | Bronze Certificate

This is where I had to make my own way to a certain point in a rural area. I was in a group of 4, this taught me and developed my leadership, communication, and teamwork skills.

## Interests

---

My passions and interests outside of work are playing football and going to the gym. I feel I'm very good at balancing my work and education with outside activities and hobbies, having great self-discipline, and enabling me to develop my skills in them as well as continuing to learn and develop my knowledge fuelling my passion for the world of TV and media.
